

Course Catalog

Fakultät für Informations-, Medien- und Elektrotechnik

Courses are colour-coded according to the course language

German

English

German, English if
necessary

German and English

– Level: Bachelor, Summer Semester

→ [Advanced methods and theories of Media Design \(Russi\)](#)

→ [algorithms and data structures \(Rosenthal\)](#)

→ [Audio Engineering \(Reiter\)](#)

→ [Autonomous Systems \(Yuan\)](#)

→ [Autonomous Systems \(Yuan\)](#)

→ [Basics of Media Design 1 \(Russi\)](#)

→ [Bioenergie und regenerative Gastechologie \(Stenzel\)](#)

→ [Communication Acoustics \(Pörschmann\)](#)

→ [Computer Graphics \(Fuhrmann\)](#)

→ [Computer Science 2 \(Fuhrmann\)](#)

→ [Control Systems of Electrical Drives \(Lohner\)](#)

→ [Data Base Systems 2 \(Behrend\)](#)

→ [Digital Communications \(Dettmar\)](#)

→ [Digital Signal Processing with FPGA \(Krah\)](#)

→ [Discrete Signals and Systems \(Elders-Boll\)](#)

→ [Display technology \(Ruelberg\)](#)

→ [Electrial Engineering Materials \(Poggemann\)](#)

→ [Mathematics 2 \(Kunz\)](#)

→ [Mathematics 2 \(Weigand\)](#)

→ [Measurement Technology \(Silverberg\)](#)

→ [Media Design Project \(Russi\)](#)

→ [Media ethics and society \(Russi\)](#)

→ [Medical Imaging \(Oberheide\)](#)

→ [Microcomputer systems \(Stockmann\)](#)

→ [Network Security and Automation \(Grebe\)](#)

→ [Operating Systems and Distributed Systems 2 \(Vogt\)](#)

→ [Operational energy management \(Stockmann\)](#)

→ [Optical Design \(Weigand\)](#)

→ [Parallel Programming and Computerarchitektur \(Thieling\)](#)

→ [Persönliche Studienverlaufsplanung \(Kreiser\)](#)

→ [Photo Technology 2 \(Fischer\)](#)

→ [Physics 1 \(Humpert\)](#)

→ [Physics 1 \(Kohlhof\)](#)

→ [Physics 1 \(Oberheide\)](#)

→ [Electric power generation \(Evers\)](#).

→ [Electrical Engineering 2 \(Basics\) \(Kronberger\)](#).

→ [Electrical Machines \(Evers\)](#).

→ [Electrical safety and EMC \(Humpert\)](#).

→ [Electronic Media 1 \(Pörschmann\)](#).

→ [Embedded system project \(Krawutschke\)](#).

→ [Energy Economics \(Stadler\)](#).

→ [Entwurf, Simulation und Layout von Schaltungen \(Brunner\)](#).

→ [Formal Languages and Automata Theory \(Nissen\)](#).

→ [Fundamentals in System Programming \(Thieling\)](#).

→ [Fundamentals of Electrical Engineering 1 \(Waffenschmidt\)](#).

→ [Fundamentals of Electrical Engineering 2 \(May\)](#).

→ [Fundamentals of Electrical Engineering 2 \(Waffenschmidt\)](#).

→ [Graphentheorie \(Randerath\)](#).

→ [High Frequency Technologies \(Kronberger\)](#).

→ [Holography \(Altmeyer\)](#).

→ [Image Processing \(Kunz\)](#).

→ [Image Sensor Technology \(Poggemann\)](#).

→ [Industrial Image Processing \(Thieling\)](#).

→ [Information technology for automation technology \(Große\)](#).

→ [Internship \(BaTIN\)](#).

→ [Introduction to Fieldbus Systems \(Bartz\)](#).

→ [IoT Protocols and Applications \(Elders-Boll\)](#).

→ [IT Security \(Knospe\)](#).

→ [Management of Projects in Information Technology \(Yuan\)](#).

→ [Mathematics 2 \(Bold\)](#).

→ [Mathematics 2 \(Knospe\)](#).

→ [Postproduction \(Gärtner\)](#).

→ [Power Electronics \(Dick\)](#).

→ [Practical Informatics 2 \(Rosenthal\)](#).

→ [Practical Informatics 2 \(Yuan\)](#).

→ [Practically based Summer School \(Schneider\)](#).

→ [Process Control Technology Systems \(Große\)](#).

→ [Product Development for Smart City \(Stadler\)](#).

→ [Programming distributed and mobile applications \(Vogt\)](#).

→ [Project Camera Technology Applications \(Fischer\)](#).

→ [Project Image Processing / Pattern Recognition \(Kunz\)](#).

→ [Project Interactive Systems \(Grünvogel\)](#).

→ [Project Media Distribution / Display Technology \(Ruelberg\)](#).

→ [Project Media Production Technologies \(Reiter\)](#).

→ [Project-based optics \(Gartz\)](#).

→ [Radiation, radiometry, photometry \(Gartz\)](#).

→ [Sensors and evaluation of measurements \(May\)](#).

→ [Software Engineering \(Kreiser\)](#).

→ [Software Lab \(Nissen\)](#).

→ [Stereoscopy \(Fischer\)](#).

→ [Switch-Mode Power Supplies \(Dick\)](#).

→ [Systems on Programmable Chips \(Krawutschke\)](#).

→ [Technical optics \(Altmeyer\)](#).

→ [Technologien der augenoptischen Industrie \(NN\)](#).

→ [wave optics, interference, diffraction \(Gartz\)](#).

→ [Web Architectures \(Wörzberger\)](#).

→ [Web Engineering 1 \(Backend\) \(NN\)](#).

→ [Web project \(NN\)](#).

→ [Writing scientific papers \(Weigand\)](#).

– Level: Bachelor, Winter Semester

→ Acoustics for Engineers (Pörschmann).

→ Analogue signals and systems (Elders-Boll).

→ Analogue signals and systems (Lohner).

→ Antenna Technology (Kronberger).

→ Applied Mathematics (Rhein).

→ Applied Statistics and Numerical Analysis (Rhein).

→ Basic Electrical Engineering for Computer Science and Engineering (Thieling).

→ Basics of Media Design 2 (Russi).

→ Business and Law (Kim).

→ Camera Technology (Fischer).

→ Computer Animation (Grünvogel).

→ Computer Generated Imagery (Fuhrmann).

→ Computer Science 1 (Fuhrmann).

→ Computer Science 3 (Lo Iacono).

→ Control Engineering (Krah).

→ Control System Technology (Kreiser).

→ Data Base Systems 1 (Behrend).

→ Data Mining (Rhein).

→ Data Mining (Rhein).

→ design and 3D-CAD (Gartz).

→ Development of Complex Software Systems (Nissen).

→ Digital Computer (Thieling).

→ Electrical Drives (Dick).

→ Electrical Engineering (Basics) (Kronberger).

→ Electrical Engineering 3 (Kronberger).

→ Electrical Power Distribution (Waffenschmidt).

→ Electronic Circuits (Schneider).

→ Electronic Media 2 (Ruelberg).

→ Light-Matter-Interaction (Oberheide).

→ Lighting Technology (Weigand).

→ Machine Learning (Thieling).

→ Mathematics 1 (Bold).

→ Mathematics 1 (Grünvogel).

→ Mathematics 1 (Knospe).

→ Mathematics 1 (Weigand).

→ Media Design Conception and Storytelling (Russi).

→ Media Distribution and Storage (Ruelberg).

→ Media Law (BaMT).

→ Medizinische Statistik und Studienplanung (BaOPT).

→ Networking in automation technology (Stockmann).

→ Neuroophthalmologie (BaOPT).

→ Operating Systems and Distributed Systems 1 (Vogt).

→ Optical metrology (Gartz).

→ Pathologie (BaOPT).

→ Pharmakologie (BaOPT).

→ Photo Technology 1 (Fischer).

→ Phototechnology 3 (Poggemann).

→ Physics 2 (Humpert).

→ Physics 2 (Kohlhof).

→ Physics 2 (Oberheide).

→ Practical Informatics 1 (Rosenthal).

→ Practical Informatics 1 (Vogt).

→ Presentation and Communication (BaTIN).

→ Principles of Networked IT Systems (Elders-Boll).

→ Process Control Engineering (Große).

→ [Electronics \(Poggemann\)](#).

→ [Embedded Systems \(Krawutschke\)](#).

→ [Energy Storage \(Stadler\)](#).

→ [F07 Networks and Protocols \(Grebe\)](#).

→ [Fahrmechanik \(Frantzen\)](#).

→ [Film- and Postproduction \(Gärtner\)](#).

→ [First term project \(Gartz\)](#).

→ [Functional Safety \(Krah\)](#).

→ [Fundamentals of Electrical Engineering 1 \(May\)](#).

→ [Fundamentals of Electrical Engineering 3 \(Evers\)](#).

→ [Fundamentals of Electrical Engineering 3 \(May\)](#).

→ [Geo- und Solarthermie \(Lambers\)](#).

→ [Geometrical Optics \(Gartz\)](#).

→ [Graphentheorie \(Randerath\)](#).

→ [Graphical User Interfaces \(Rosenthal\)](#).

→ [High Voltage Technology \(Humpert\)](#).

→ [Industrial Computer Vision \(Thieling\)](#).

→ [Internship \(BaTIN\)](#).

→ [Kinderoptometrie \(BaOPT\)](#).

→ [Laser Physics and Technology \(Altmeyer\)](#).

→ [Light microscopy \(Altmeyer\)](#).

→ [Programming Practice \(Yuan\)](#).

→ [Programming Project \(Kreiser\)](#).

→ [Recipe Control \(Große\)](#).

→ [Self-management in studies \(Grünvogel\)](#).

→ [Signal Processing \(Bartz\)](#).

→ [Signal Theory and Applied Mathematics \(Kunz\)](#).

→ [Signalprocessing using Matlab/Python and Microprocessors \(Elders-Boll\)](#).

→ [Simulation von Energiesystemen \(Nebel\)](#).

→ [Software Engineering \(Nissen\)](#).

→ [Software Management \(Wörzberger\)](#).

→ [Solarenergie \(Blieske\)](#).

→ [Source and Channel Coding \(Dettmar\)](#).

→ [Spezielle Kontaktlinsen \(BaOPT\)](#).

→ [System Design Lab \(Wörzberger\)](#).

→ [Theory of imaging \(Altmeyer\)](#).

→ [Verteilte Datenverarbeitungssysteme \(Behrend\)](#).

→ [Video Studio Technology \(Reiter\)](#).

→ [Visual and Auditive Perception \(Kunz\)](#).

→ [Web Architectures \(Wörzberger\)](#).

→ [Web Engineering 2 \(Frontend\) \(NN\)](#).

→ [Wind Energy \(Stadler\)](#).

→ [Wireless Communications in the IoT \(Dettmar\)](#).

→ [Writing scientific papers \(Weigand\)](#).

– Level: Master, Summer Semester

→ [Advanced Channel Coding \(Dettmar\)](#).

→ [Advanced Mathematics \(Knospe\)](#).

→ [Applied Mathematics \(Grünvogel\)](#).

→ [Basics on Systems and Networks \(Kronberger\)](#).

→ [Industrial property protection \(Ladrière\)](#).

→ [Intelligent Information Systems \(Behrend\)](#).

→ [Large and Cloud-based Software-Systems \(Wörzberger\)](#).

→ Communication in Distributed Systems and Networks (Jonas)

→ Computational Intelligence (Bartz)

→ Cryptography (Knospe)

→ Digital Motion Control (Krah)

→ Electric vehicle drivetrain (Lohner)

→ Electrical Power Grids for Renewable Energy (Waffenschmidt)

→ Embedded Security (Lemke-Rust)

→ Ethics (MaTIN)

→ Finite element method in electrical engineering (Evers)

→ High Voltage Transmission Technology (Humpert)

→ Human Computer Interaction (Fuhrmann)

→ Identification and Privacy Enhanced Technologies (Ullmann)

→ image_processing_master (Salmen)

→ Machine Learning and Scientific Computing (Rhein)

→ Next Generation Networks (Grebe)

→ Nonlinear optics (Oberheide)

→ Optical and wireless communication systems (Uhde)

→ Optical Spectroscopy and Applications (Gartz)

→ Optoelektronik (NN)

→ Parallel Programming (Fuhrmann)

→ Project Management (Dettmar)

→ Research Project in Virtual Acoustics and Object Based Audio (Reiter)

→ Research Project Virtual and Augmented Reality (Grünvogel)

→ Research Seminar (Krah)

→ Technologies and Systems of Video Production (Reiter)

→ Theoretical Computer Science (Randerath)

→ Theoretical Electro Dynamics (Kohlhof)

→ Virtual Acoustic Environments (VAE) (Pörschmann)

– Level: Master, Winter Semester

→ Advanced Multimedia Communications (Grebe)

→ Algorithms for video signal processing (Ruelberg)

→ Alternative Computer Architectures and Programming Languages (Wörzberger)

→ Audio and Video Technologies (Ruelberg)

→ Combinatorial Optimization and Graph Algorithms (Randerath)

→ Communication in Distributed Systems and Networks (Jonas)

→ Digital Imaging (Fischer)

→ Digital Signal Processing (Elders-Boll)

→ Project management (Gartz)

→ Project Management (Dettmar)

→ Quantum mechanics (Oberheide)

→ Research Project in Virtual Acoustics and Object Based Audio (Reiter)

→ Research Project Virtual and Augmented Reality (Grünvogel)

→ Research Seminar (Krah)

→ RF System Design (Kronberger)

→ Scanning Microscopy (Altmeyer)

→ Servicemanagement in Netzen (Leischner)

➔ Electric Railways (Evers).

➔ Embedded Systems in Media Technology (Poggemann).

➔ Energy Management in Interconnected Systems (Stadler).

➔ Ethics (MaTIN).

➔ IT Security (Knospe).

➔ Micro and nano systems (Kohlhof).

➔ Optical Software Development (Weigand).

➔ Power Electronics for PV and Wind (Dick).

➔ Power Electronics for PV and Wind (Lohner).

➔ Simulation of Illumination Systems (Weigand).

➔ Software Engineering by Components and Pattern (Kreiser).

➔ Special Aspects of Mobile Autonomous Systems (Yuan).

➔ State Space Control (Große).

➔ Systems Engineering for Energy Efficiency (May).

➔ Virtual and Augmented Reality (Fuhrmann).

➔ Virtuelle Private Netze (Östreich).

➔ Zuverlässigkeit von Systemen (Jung).
